Databases – Firebase, DynamoDB, Mongo DB, MySQL

Developments – Web, Android, ML

Tools – Docker, GitHub, Git, Postman, Figma

INTEREST

I have a deep passion for music, coding, and traveling, as well as a love for all things creative. Music fuels my creativity and serves as a source of inspiration during my coding sessions. Exploring new destinations while traveling broadens my perspective and stimulates fresh ideas. These diverse interests converge to create a well-rounded approach to problem-solving and a unique perspective in my work. The harmonious blend of music, coding, and traveling fuels my creativity and adds depth to my experiences as a creative thinker and developer.

LANGUAGES

Odia – 100 %
Hindi – 60 %
English – 50 %

PROFILE

I am Tanmay, a developer, coder, and UI/UX enthusiast. I am on a mission to blend creativity and functionality to craft seamless digital experiences. When I am not coding, I am grooving to the rhythms of music, finding inspiration in the harmony of technology and melodies.

EXPERIENCE

Full Stack Web Developer at Intelligent Cloud Applications

Working with some client website with MERN and AWS, I created whole frontend and some part of the backend like some APIs and databases.

PROJECTS

Mood Based Music Suggestion App (Next ,TensorFlow)

This is a web & android application that suggest songs based on your mood by either face detection or conversation with it, I trained it with a 1000 number of data, now it is in its version 2 and it will upgrade soon. <https://github.com/unstoppable-tanmay/TuneMood>

Threads Clone (Angular)

I Cloned the Thread app with a web interface with angular and now developing the backend for it <https://threadgram.netlify.app/>

InnoVerse – (Flutter , Firebase)

A Project showcase application with Flutter and Firebase, where student can show their projects and can get stars and share ideas. <https://threadgram.netlify.app/>

Book Hive – (React, Node, MongoDB)

I Developed an application for college library, here students can download books provided by college and can download notes as well as questions. <https://github.com/unstoppable-tanmay/BookHive>

EDUCATION

Btech – Government College of Engineering Kalahandi

Btech degree with computer science branch with CGPA – 8.82.

12th– Bhadrak Autonomous College

Completed 12th with science stream in Bhadrak with Mark – 75.8%.

POSITION OF RESPONSIBILITY

Coordinator Of Codebreakers – College Coding Group

I lead the team codebreakers in our college and manage the college student website with library website
